Credit Total: 120 (minimum 120 required for degree)

Assumptions: college-level readiness in MTH & ENG; no Foreign Language Deficiency

College/Program Notes: If the CLASS Foreign Language Requirement was fulfilled in High School, the 8 university credits listed here must still be taken in any subject in order to reach the 120 total credit hours required for the degree.

The plan above is a suggested guide to ensure that all General Education, College, University, and Major requirements are met within 4 years of study. Students may deviate from the suggested placement of Gen Ed courses, although the M/QL and W/C requirements should be completed during the first year of study.

*General Electives ensure that a student accumulates the minimum credit hour totals needed for graduation. Students must have a **minimum of 120 total credit hours**, of which a **minimum of 42 credit hours** must be upper division (300 or 400-level courses). Depending upon other elective choices made, students may not need as many general electives as indicated above, or may need additional electives.
